The 50 細期3 週X Bulletin

Volume 9, Issue 10

October 1998

ISSN 1073-1024

The 50 MHz DX Bulletin was founded by Harry Schools K3HS. It is dedicated to the understanding and utilization of long distance propagation in the 6-meter Amateur band. The current editor and publisher is Victor Frank, K6FV. Subscription rates are \$20 U.S. third class mail, \$25 U.S./Canada/Mexico airmail, \$25 by surface and \$30 by airmail elsewhere for 12 issues. Circulation matters and DX reports should be sent to Victor R. Frank, K6FV, 12450 Skyline Blvd., Woodside, CA 94062-4558 USA or to P O Box 762, Menlo Park, CA 94026 USA. My Internet address is frank@horizon.sri.com. The bulletin may be freely quoted, provided that credit is given.

VK/ZL work W0/W6 see reports inside. DX Operations

C6, Bahamas: Operators Kevin/N8ZJN/C6AKL, James/KB8YKR, Byron/WA8NJR, Joe/W8GEX/C6AJR and John/WZ8D/C6AIE will be active as C6DX from December 8-16th, from the island of Abaco (IOTA NA-080).

Pratas Is. OL80: BV2NT, Lee announced that BQ9P will be QRV including 6m and 2m by lots of BV operators from 06z on November 12 to 00z on November 19. 6m/2m will be on 50.015 CW/50.125 SSB and 144.010 CW/144.110 SSB.

Lord Howe Is.: VK4JSR/VK9L will be operating from Somerset Holiday Apts, -31.6, -159.1 from November 18 to November 22 with a FT847 and 5 el Yagi for 6m & 28.885.

Tanzania: J52US/9L1US etc has recently been licensed as 5H3US and says he'll be on all bands 160-6m over the next three years.

6 meters in Haiti - HH6PA

I (PE1NWL) just returned from a two weeks trip to Haiti. Primary goal of this trip was to visit my brother who lives there and of course to have some 'holidays'. However, this trip was also a unique opportunity to explore the possibilities of the 6 meter band in tropical regions. With the help of my brother I managed to obtain a license for three months with the call sign HH6PA.

Pim, PAOTLX, lent me his Yaesu FT690, which can run on NiCd batteries, and a compact ground plane antenna, ideal for portable operation. I also had my own 100 W linear amplifier with me. HH6PA was active from four different locations: ① My brother's house in Port-au-Prince (FK38). Two-way communication was impossible due to very high QRN levels from nearby power lines. I had the HH6PA/B beacon running on 50.123 for some days, but I did not receive any reports so far. 2 A hotel on the beach in Cap Haitien on the North coast. High mountains were in the South, so take-off was only good between NW and NE. Unfortunately there was no propagation to that direction during my stay. 3 A huge fortress called 'La Citadelle' near Cap Haitien on top of a 1000 m high mountain. An ideal spot because it is open to all directions. The grid square is FK39. On October 4th at 2200 UTC (1700 LT), during a short excursion to this place, I worked LU9AEA and LU2DEK (distance approx. 6200 km) with 3 Watts on the telescopic antenna that comes with the Yaesu FT690. Signals were nevertheless 59+! Unfortunately I had to go QRT because my NiCd batteries went dead and we had to leave before sunset. ② A small bungalow on the beach of Jacmel (FK38) on the South coast, where I stayed during a long weekend. Mounted the GP antenna on a 6 meter high palm tree on the beach. High mountains were in the North. Used the 100 W linear and the 80 Ah battery of our four wheel drive (and a candle for keeping the log). Had two very good TEP openings on October 9/10 and on October 10/11, both between 2300 and 0100 UTC (1800 and 2000 LT). Despite the poor working conditions, I could work 30 LUs, 9 PYs, 9 CXs and 2 ZPs. One LU-station (LU8AHW) was using only 300 mW on an open dipole, which I could still copy very well with 51 signals!

Beacon News

LA7SIX: QRV 50.051 from new QTH, Senja Island, EU-046, JP89mb, 20W for 4 el Yagi 20m high beaming 180 deg.

August-October 98 DX Reports

The following reports of 50 MHz and higher DX propagation are courtesy of SM7AED's Six-metre Info, JA1VOK's column V,UHF DX Topics in MOBIL HAM, GJ4ICD's Internet 6m News, G4UPS, YO7VS, EH8BPX, LW5EJU, VE7SKA, K6QXY, XE2HWB, XE1AVM, WA7QBS, K1MOD/9 and postings on the Internet. Apologies to any sources I may have inadvertently neglected.

The first entry is mmddhhii, where mm is the month, dd is the day of the month, hh is the hour UTC, and ii is the minutes after the hour. The year is understood to be 1998. A + to the right of the time indicates the observation was one of several in a time period and is probably later than the time reported. A \sim indicates approximate time. The grid square of the observing station may occur after a > symbol; however a time after > indicates the opening was still in

progress at this time. A t indicates tentative identification of a TV station. Symbols just before the call of the reporting station include: V=Video Carrier, I=Inband video sidebands, F=FM audio, B=beacon, C=CW, S=SSB, T=Television, W=mode not mentioned (or both CW & SSB), H=heard only.
